WHAT IS A COMFORT CELL?

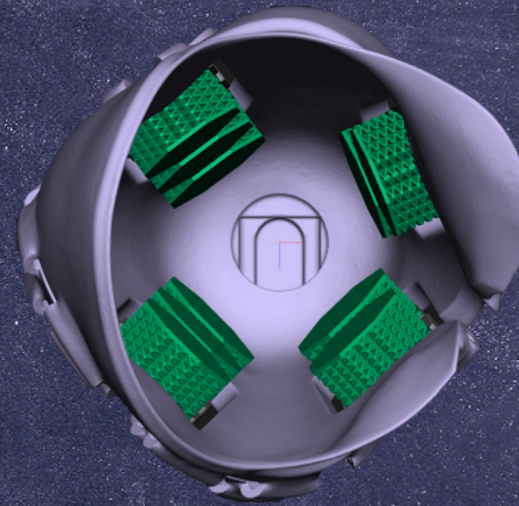

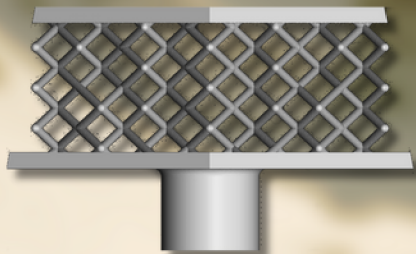

THERE ARE 2 TYPES:

LARGE COMFORT CELLS

&

SMALL COMFORT CELLS

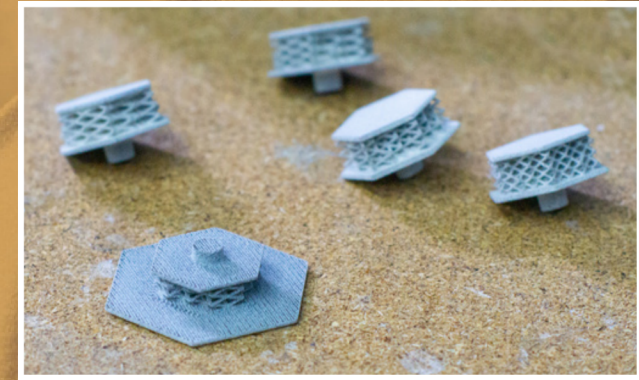

Incorporating Large Comfort Cells alongside an adjustable dial allows for precise compression adjustment on the residual limb.

These large cells are designed to flex and conform to your body's contours, ensuring unparalleled comfort and security in your socket.

Experience the ultimate in comfort and stability with our innovative design!

COMFORT CELLS - PATENT PENDING

HOW DO THEY WORK?

Utilize Small Comfort Cells whenever support is needed.

These small cells are designed to fit within the perforated holes in the flexible inner socket.

Install and remove Comfort Cells with ease.

Ask your Prosthetist if Comfort Cells are right for you!
