QUATRO SUCTION

PATENT NO.
10004614B1, 10406003B2, 11844667B2

CONFIDENCE & STABILITY

The Quatro Suction is designed to work in tandem with our comfort cells. These cells can be easily interchanged on the socket rails. This allows the user to quickly change cells to maximize stability and comfort.

Comfort Cells
PATENT PENDING

DESIGN

Our highly skilled team of engineers will use the digital scan to make the socket 100% custom for you.

Quatro sockets are rigorously tested to ensure you will have a lightweight and incredibly strong socket for many years.

The Quatro Suction is designed with four zones of proportional compression control.

Carbon Reinforced | 1-Way Valve

Above Knee & Below Knee sockets are available now!

MADE IN THE USA

Each 3D printed device is manufactured in the United States of America using the highest quality materials.
